

## Clip Fast Bar Chairs

Compliant with AS/NZS 2425:2015 Bar Chairs in Reinforced Concrete  
TMR Registered Supplier

### Product Information

Clip fast bar chairs are used for supporting rebars in a reinforced concrete structure. They provide maximum support to hold the rebars in position during the concrete pour and are typically used when positioning against the sides of the formwork in beams and walls.

Clip fast bar chairs are available in a wide range of sizes to suit most concrete cover requirements.
