

NEUMANN STEEL
REINFORCING

Circular Column Spacers

Made in Australia
Compliant with AS/NZS 2425:2015
An easy and efficient auto-lock mechanism
Provides a 360° coverage
Made from recycled material
Available in 7 sizes
20mm - 75mm diameter

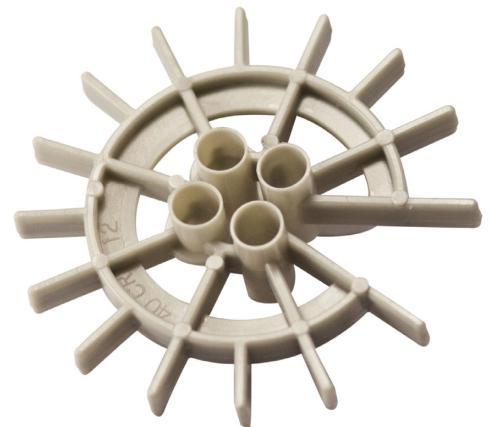

Circular Column Spacers ensure that the rebar is firmly held inside the framework during the concrete pour. They provide a minimum concrete cover to vertical steel reinforcement structures such as walls, columns and piers.

Avoids any voids or segregation of concrete and is completely invisible after stripping of formwork.

Stock Sizes

Product Code	Size (mm)	Quantity in pack
CSC20	20	100
CSC25	25	100
CSC30	30	100
CSC40	40	100
CSC50	50	100
CSC60	60	100
CSC75	75	100
