# Clip Fast Bar Chairs

Made in Australia  
Compliant with AS/NZS 2425:2015  
Easy and efficient clip-on mechanism  
Available in a wide range of sizes  
Suitable for most concrete cover requirements

Clip Fast Bar Chairs are used for supporting rebars in a reinforced concrete structure. They provide maximum support to hold the rebar in position during the concrete pour and are typically used when positioning against the sides of the formwork in beams and walls.
