

**NEUMANN STEEL**  
REINFORCING

# Ligatures

Made in Australia  
Complies with AS/NZS 4671:2019  
Available in stock  
Adds structural integrity and strength  
Separation of bar when creating cages  
Can be custom ordered to specifications

Ligatures, also commonly known as fitments, are pieces of steel reinforcing bar which are used to create reinforcing steel cages. They are often used to assist in creating footing cages, pile cages, bored piers, column cages, wall and suspended beams. They are used to separate bars at the specified spacing and to increase the integrity and strength of the structure.

## Stock Sizes

Product Code	Diameter (mm)	Dimensions (mm)
LD102020	DW 9.5	200 x 200
LD103020	DW 9.5	300 x 200
LD103025	DW 9.5	300 x 250
LD103030	DW 9.5	300 x 300
LD103040	DW 9.5	300 x 400
LD104020	DW 9.5	400 x 200
LD105020	DW 9.5	500 x 200
LN123020	N 12	300 x 200
