

Steel Spirals

Made in Australia
Compliant with AS/NZS 4671:2019
Available in stock
Light and easy to work with
Ideal for rapid, non-custom projects

Steel spirals are typically used for the rapid fabrication of steel cages and piles. The instant cage can then be laid directly into the ground and the concrete poured immediately. They can be stretched out to the required length and tied to straight bars and are often used in residential slabs to reinforce small diameter bored piers.

Stock Sizes

Product Code	Bar Type	Spiral Diameter
SPR6/0.150	R6	5 x 150 x 70
SPR6/0.170	R6	5 x 170 x 70
SPR6/0.200	R6	5 x 200 x 70
SPR6/0.220	R6	5 x 220 x 70
SPR6/0.250	R6	5 x 250 x 70
SPR6/0.300	R6	5 x 300 x 70
SPR6/0.350	R6	5 x 350 x 70
SPR6/0.400	R6	5 x 400 x 70
SPR6/0.450	R6	5 x 450 x 70
