

NEUMANN STEEL
REINFORCING

Top Deck Chairs

Made in Australia
Compliant with AS/NZS 2425:2015
100% recycled
Available in dual heights
Large saddles

Top Deck Chairs hold the steel reinforcing bars firmly in position during the concrete pour as they feature the perfect dimensions for the correct concrete cover. Providing a large cover with minimum exposure as they do not spread under normal construction loads, with maximum leg clearance to straddle the bottom layer of reo. They provide additional support as cross bar between the dual support enables tying the reo.

Suitable for use on double mesh slab applications and all reo.

Stock Sizes

Product Code	Size (mm)	Pack Quantity
PTD65	65 & 75	50
