

Waffle Pods

Compliant with AS 2870-2011
 Complete slab in one concrete pour
 No need to dig trenches for footings
 Lower cost than a traditional slab
 Available in 5 pod heights
 Sizes 1100mm x 1100mm

Waffle Pods are an efficient way to create concrete slabs. They are used as a void former. Concrete is then poured around the foam pieces to form the concrete slab. This results in a significant reduction in the amount of concrete required.

Stock Sizes

Pod Height (mm)	Dimensions (mm)
175	1100 x 1100
225	1100 x 1100
300	1100 x 1100
375	1100 x 1100
525	1100 x 1100
